# 1.1 Background

International Medical Corps is a global, humanitarian, nonprofit organization dedicated to saving lives and relieving suffering through health care training and relief and development programs. International Medical Corps is working in Iraq for the last sixteen years, working in KRI and Southern Governorate for deploying mobile medical teams (MMUs), Emergency Response, primary Health Care this includes; general curative consultations, management of communicable and non-communicable diseases, community health and emergency referral services.

In pursuit of its mandate and mission, IMC Iraq/ Duhok Office engages with other partners including suppliers in delivery of goods and services, and Vehicle Rental services is one key category where IMC is major consumer's. IMC Iraq/ Duhok Office would therefore like to have a long-term contractual agreement (Blanket Purchase Agreement- BPA) for Vehicle Rental services if successful, for fixed price for twelve (12) months with a possibility of extension for another twelve months, [twenty four (24) months as a maximum duration]. The estimated volume of business will reach USD 941,700.00 for twenty four (24) months (the Contract will be for twelve (12) months and a Market Survey will be conducted before the extension for the additional 12 months).

International Medical Corps is planning to look for your best offer for the vehicle rental services as described below in the Scope of Work in the section 1.4.

# 1.2 What is Blanket Purchase Agreement (BPA)?

- BPA is a type of contractual agreement where selected vendors are contracted to provide to IMC Iraq/ Duhok Office with a **determined** set of products or services for **fixed price** during the **fixed** period of time.
- Terms agreed must remain fixed during the BPA duration of one year with possibility of extension for another year.
- BPA does NOT mention or commit to the quantity to be purchased this depends on many factors where IMC Iraq/ Duhok Office works.
- Prices are fixed, but quantity are not. BPA does have a maximum total amount (not to exceed amount) This amount cannot be exceeded during the contract period, BUT IMC IRAQ/ DUHOK OFFICE DO NOT MAKE ANY COMMITMENT TO SPEND THE TOTALITY OF THIS AMOUNT.
- For this solicitation, the volume of business expected is USD 941,700.00. This represents the anticipated volume of trade estimated for the BPA duration (12 month + 12 month possible extension). However, in the contract the Not To Exceed (NTE) amount might differ, in order to allow further flexibility, in case of unexpected needs. Vendors are expected to quote according to the volume of business and not to the NTE.

- In the case the contract is awarded to multiple vendors:
  - There is an overall shared ceiling price of Not-To-Exceed amount for a duration of 12 months with the possibility to extend for one more year upon the satisfactory performance of this BPA and mutual agreement of the Parties. The maximum aggregate dollar value of orders placed to all BPA awardees cannot exceed the contracted ceiling. This ceiling is not being subdivided among the number of awardees nor is it being multiplied by the number of awardees.
- Purpose of BPA is to avoid repetitive long tendering process every time IMC Iraq/ Duhok
  Office has a need to source products or services. Instead, when there is a need, International
  Medical Corps would issue Work Order directly to selected vendor upon which vendor
  would confirm acceptance and just proceed with delivery of the service with invoice to
  designated email address.
- When a Contract/BPA includes the possibility of an extension and the NTE amount is not reached yet, it is possible to extend the Contract/BPA up to a new period (not more than one year) or up to exhaustion of remaining NTE balance, whichever comes first. In such case, International Medical Corps' team would assess if contracted prices are still competitive (through a market survey) and whether it is to International Medical Corps' advantage to extend the Contract.
- Contract termination; the contract will be valid for a period of minimum one year, with possibility of extensions for additional year or up to exhaustion of the NTE balance, whichever comes first.

# 1.3 Bid Evaluation Steps

All bids received as a result of this competitive bidding process will be analyzed and scored through a 4-step evaluation process:

Technical Evaluation

Financial Evaluation

**Final Selection** 

#### **ELIGIBILITY**

**Purpose:** Ensure all bidders have submitted all mandatory documents as specified in the tender advert and documentation

#### **Eliminatory:**

YES
